

Map Tools

Map Tools

The Map Tools helps you search, identify and mark the dig site.

Map/Search Results:

- Select *Use Ticket* to search for a location using the ticket information entered.
- The Search Results will list options for the Exact Street, Bing Results, Street Begins With and Similar Streets.

Note: Selecting *Bing Results* will bring up the exact address entered.

Note: Selecting *Exact Street*, *Street Begins With* or *Similar Streets* will find and highlight the selected road near the area you need to map.

- Select the correct street or address where the work will be done.
 - When you select an option from Exact Street, Street Begins With or Similar Streets, the map will highlight the selected road.
 - When you select Bing Results, the map will place an X on the road or property parcel if the entered road or address is found on the map.
 - If you select an option from the list that has a box to the left of the name or click on the box, a list of cross streets for that street will drop down. To collapse the intersecting street list, click on the box.

Map/Tools:

- Use the Mark Radius, Mark Point, Mark Line, Mark Area or Use Selection tools to select the dig site:
 - Mark Radius – Draws a circle, at the selected point, according to the entered radius.
 - Mark Point – Draws a point on the map with a 200ft buffer.
 - Mark Line – Draws a line on the map with a 200ft buffer.
 - Mark Area – Draws a shape on the map without a buffer.
 - Use Selection – Draws a circle, at the selected point, using a 200ft radius.
